

IQClick

Interactive Response System

IQClick interactive response system creates connections that teachers can set questions quickly in class and students could use IQClick to answer questions quickly instead of writing or spoken response.

Engage every student

With IQClick at hand, students are not passive listeners are before, instead, they are active participants. IQClick enhances interactive learning in class by giving even the most timid students a voice.

Track Process Easily

With IQClick interactive response system, teachers can track progress through instant feedback to determine whether he/she need to do reviewing, re-teaching or go on with his/her following lesson.

Assess Student Understanding

Once students have responded to questions, IQVote enables exporting the answer and score statistics which can be instantly viewed and analyzed in a pie chart or bar graph. Make it easier for teachers to evaluate each student or group performance.

Full-Featured Software

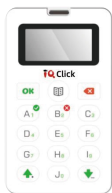

Support multiple interactive responses including Quick Quiz, Polling, Rush Answer, Random roll call, and Standard Testing to empower a more engaging class.

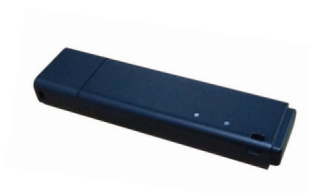

Transmit Widely and Stably

Adopting 2.4G RF technology, two-way data verification, multi-level error correction to ensure 80 channels available, stable transmission and effective anti-interference. 100 votes can be collected in 5 seconds within the distance of 30 meters.

Standard Configuration

IQClick

1 Receiver
